GUESTS OF HONOR

As we announced during our bid, we have decided to not have traditional guests of honor, in favor of focusing the resources that would be spent on such guests on the membership as a whole. This means that our hospitality budget will be higher and the overall convention membership cost lower. We may consider inviting selected guests should additional currently un-budgeted revenue become available.

We are following the Worldcon model of “everybody pays, everybody plays,” including asking all program participants, committee, staff, and volunteers to purchase their memberships.

GETTING TO TONOPAH

The primary means of getting to Tonopah is by private vehicle. There is neither rail or air service to Tonopah, nor was there an intercity bus service operating as we went to press. The nearest airports with extensive scheduled passenger service are Las Vegas and Reno, each about 200 miles from Tonopah. Members are of course responsible for arranging their own transportation and checking the conditions of any purchased transportation by any mode (air, rail, bus, etc.).

We recommend that persons flying to Tonopah coordinate their plans with other members to both reduce travel costs and increase the opportunities to explore the area during the drive. Contact our Travel team to help match up with other fans.
